CHICAGO, December 5, 1871.

To the Officers of the Germania, Hanover, Niagara and Republic Fire Ins. Co.'s of New York:

GENTLEMEN:—The course pursued by your Companies in the adjustment and payment of our own claims, and so far as we know, ALL claims for losses in the great fire in Chicago, has been so highly honorable, prompt and straightforward, and marked by such apparent desire to deal justly towards all parties, under all circumstances, that we desire voluntarily to acknowledge it to the business public. We conceive that no stronger test could be made, both of the responsibility and of the integrity of an Insurance organization, than yours has passed through here successfully and creditably. With an unimpaired Capital and undiminished responsibility, and a record for equitable settlement, certainly surpassed by none, we congratulate you on the career of future prosperity, to which your actions here have so justly entitled you, and remain,

Yours very respectfully,

A BURIED ANCIENT TOWN DISCOVERED.

The Portsmouth (Oregon) Herald of the 26th ultimo says:

Travellers from Monticello to Olympia all have noticed the singular formation of ground in what is known as Mound Prairie. There is a large mound—say 300 feet high and 800 yards in diameter at the base—at the southern end of the prairie, about twenty-five miles from Olympia, and scattered over the prairie for a distance of fifteen miles are many smaller mounds, not more than three or four feet high and twenty or thirty in diameter. Many conjectures have been made for the last twenty years as to what could have caused so singular a formation, but no one was ever curious enough till within the last few days to make any examination of the interior of these mounds. A few days ago one of the engineers of the North Pacific Railroad opened one of them and found the remains of pottery, and a more thorough examination of others revealed other curious relics, evidently the work of human hands; in fact, in every mound that has been opened there is some curious relic of a long forgotten race discovered. The theory now is that this prairie was the cemetery of the people who inhabited the country in ante-historic times. Specimens of the pottery have been sent to Professor Agassiz, and it is expected that he will make a visit to the place and make a thorough examination personally."

A NUT FOR NATURALISTS.

Some unknown writer has been examing the mystery of our inland seas and comes to the following conclusion concerning them and the little fishes:

Lake Erie is only 60 or 70 feet deep; but Lake Ontario, which is 592 feet deep, is 230 feet below the tide level of the ocean, or as low as most parts of the Gulf of St. Lawrence; and the bottoms of Lakes Huron, Michigan and Superior, although the surface is so much higher, are all, from their vast depths, on a level with the bottom of Ontario. Now, as the discharge through the river Detroit, after allowing for the probable portion carried off by evaporation, does not appear by any means equal to the quantity of water which the three upper lakes receive, it has been conjectured that a subterranean river may run from Lake Superior, by the Huron, to Lake Ontario. This conjecture is by no means improbable, and accounts for the singular fact that salmon and herring are caught in all the lakes communicating with the St. Lawrence, but in no others. As the Falls of Niagara must have always existed, it would puzzle the naturalists to say how these fish got into the upper lakes without some such subterranean river; moreover, any periodical obstruction of the river would furnish a not improbable solution of the mysterious flux and reflux of the lakes.

ELEMENTS OF A HOME.

I never saw a garment too fine for man or maid; there never was a chair too good for a cobbler, or cooper, or king, to sit in; never a house too fine to shelter the human head. These elements about us, the gorgeous sky, the imperial sun, are not too good for the human race. Elegance fits man. But do we not value these tools of housekeeping a little more than they are worth, and sometimes mortgage a home for the mahogany we would bring into it? I had rather eat my dinner off the head of a barrel, or dress after the fashion of John the Baptist in the wilderness, or sit on a block all my life, than consume myself before I get to a home, and take so much pains with the outside that the inside was as hollow as an empty nut. Beauty is a great thing, but beauty of garments, house and furniture is a very tawdry ornament compared with domestic love. All the elegance in the world will not make a home, and I would give more for a spoonful of real hearty love than for whole ship-loads of furniture, and all the gorgeousness that all the upholsterers of the world could gather together. —Theodore Parker.

STRANGE FREAK OF LIGHTNING.—A young lady, while standing in a window at Morgantown, Butler county, Ky., received a slight shock from a flash of lightning. On her recovery, it was found that an ailanthus tree, standing near the window, had been accurately photographed by the electric flash upon her breast. This reminds a friend that in his youth he was the object of photography. He had told his father that he was "a demented old jackass." The awful remark enraged the ... old gentleman, and he ... viewed his son. When the interview was over the ... felt that he had been struck by lightning, and that a photograph of a ... hand was distinctly visible but not where he could see the picture. Lightning is guilty of strange freaks at times.

SOME figures given by the Boston Advertiser show that the profits of the manufactures of that State were $102,000,000 in 1870, or about $68 per capita to the population. The wages paid amounted to $18,000,000, which, to those employed in the factories, was equivalent to $421 each.

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied; despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen. Grant's Presidency at the rate of one hundred millions of dollars a year; a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the nation kept in high respect throughout the world. This glorious record of the past is the paryt's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fitly demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of time or cause of such discharge.

9. The doctrine of Great Britain and other European powers, concerning allegiance, "once a subject, always a subject," having at last through the efforts of the Republican party, been abandoned, and the American idea of an individuals's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former governments, and we urge continual and careful encouragement and protection to voluntary immigration.

10. The franking privilege ought to be abolished and the way prepared for a speedy reduction in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of so shaping legislation as to secure full protection and the amplest field for capital, and for labor, the creator of capital, the largest opportunities, and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot-box, and therefore are entitled to the thanks of the nation.

13. We denounce the repudiation of the public debt, in any form or disguise, as a national crime, and we witness with pride the reduction of the principle of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction; and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism, the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustious services of Ulyssess S. Grant have commended him to the hearts of the American people, and with him at our head we start to-day on a new march to victory.

these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, there is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

...a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are

CHICAGO, December 5, 1871.

To the Officers of the Germania, Hanover, Niagara and Republic Fire Ins. Co.'s of New York:

GENTLEMEN:—The course pursued by your Companies in the adjustment and payment of our own claims, and so far as we know, ALL claims for losses in the great fire in Chicago, has been so highly honorable, prompt and straightforward, and marked by such apparent desire to deal justly towards all parties, under all circumstances, that we desire voluntarily to acknowledge it to the business public. We conceive that no stronger test could be made, both of the responsibility and of the integrity of an Insurance organization, than yours has passed through here successfully and creditably. With an unimpaired Capital and undiminished responsibility, and a record for equitable settlement, certainly surpassed by none, we congratulate you on the career of future prosperity, to which your actions here have so justly entitled you, and remain,

Yours very respectfully,

A BURIED ANCIENT TOWN DISCOVERED.

The Portsmouth (Oregon) *Herald* of the 26th ultimo says:

Travellers from Monticello to Olympia all have noticed the singular formation of ground in what is known as Mound Prairie. There is a large mound—say 300 feet high and 800 yards in diameter at the base—at the southern end of the prairie, about twenty-five miles from Olympia, and scattered over the prairie for a distance of fifteen miles are many smaller mounds, not more than three or four feet high and twenty or thirty in diameter. Many conjectures have been made for the last twenty years as to what could have caused so singular a formation, but no one was ever curious enough till within the last few days to make any examination of the interior of these mounds. A few days ago one of the engineers of the North Pacific Railroad opened one of them and found the remains of pottery, and a more thorough examination of others revealed other curious relics, evidently the work of human hands; in fact, in every mound that has been opened there is some curious relic of a long forgotten race discovered. The theory now is that this prairie was the cemetery of the people who inhabited the country in ante-historic times. Specimens of the pottery have been sent to Professor Agassiz, and it is expected that he will make a visit to the place and make a thorough examination personally."

A NUT FOR NATURALISTS.

Some unknown writer has been examing the mystery of our inland seas and comes to the following conclusion concerning them and the little fishes:

Lake Erie is only 60 or 70 feet deep; but Lake Ontario, which is 592 feet deep, is 230 feet below the tide level of the ocean, or as low as most parts of the Gulf of St. Lawrence; and the bottoms of Lakes Huron, Michigan and Superior, although the surface is so much higher, are all, from their vast depths, on a level with the bottom of Ontario. Now, as the discharge through the river Detroit, after allowing for the probable portion carried off by evaporation, does not appear by any means equal to the quantity of water which the three upper lakes receive, it has been conjectured that a subterranean river may run from Lake Superior, by the Huron, to Lake Ontario. This conjecture is by no means improbable, and accounts for the singular fact that salmon and herring are caught in all the lakes communicating with the St. Lawrence, but in no others. As the Falls of Niagara must have always existed, it would puzzle the naturalists to say how these fish got into the upper lakes without some such subterranean river; moreover, any periodical obstruction of the river would furnish a not improbable solution of the mysterious flux and reflux of the lakes.

ELEMENTS OF A HOME.

I never saw a garment too fine for man or maid; there never was a chair too good for a cobbler, or cooper, or king, to sit in; never a house too fine to shelter the human head. These elements about us, the gorgeous sky, the imperial sun, are not too good for the human race. Elegance fits man. But do we not value these tools of housekeeping a little more than they are worth, and sometimes mortgage a home for the mahogany we would bring into it? I had rather eat my dinner off the head of a barrel, or dress after the fashion of John the Baptist in the wilderness, or sit on a block all my life, than consume myself before I get to a home, and take so much pains with the outside that the inside was as hollow as an empty nut. Beauty is a great thing, but beauty of garments, house and furniture is a very tawdry ornament compared with domestic love. All the elegance in the world will not make a home, and I would give more for a spoonful of real hearty love than for whole ship-loads of furniture, and all the gorgeousness that all the upholsterers of the world could gather together. —*Theodore Parker.*

STRANGE FREAK OF LIGHTNING.—A young lady, while standing in a window at Morgantown, Butler county, Ky., received a slight shock from a flash of lightning. On her recovery, it was found that an ailanthus tree, standing near the window, had been accurately photographed by the electric flash upon her breast This reminds a friend that in his youth he was the object of photography He had told his father that he was "a demented old jackass" [illegible] son. When the interview was over the [illegible] he felt that he had been struck by lightning, &c. but a photograph of a man's hand was distinctly visible but not where he could see the picture. Lightning is guilty of strange freaks at times.

SOME figures given by the Boston *Advertiser* show that the profits of the manufactures of that State were $102,000,000 in 1870, or about $68 per capita to the population. The wages paid amounted to $18,000,000, which, to those employed in the factories, was equivalent to $421 each.

THE PLATFORM.

The following is the Platform adopted by the National Republican Convention at Philadelphia:

The Republican party of the United States, assembled in National Convention in the city of Philadelphia, on the 5th and 6th days of June, 1872, again declares its faith, appeals to its history, and announces its position upon the questions before the country.

1. During the eleven years of its supremacy it has accepted with grand courage the solemn duties of the time. It suppressed a gigantic rebellion, emancipated 4,000,000 slaves, decreed the equal citizenship of all and established universal suffrage, exhibiting unparalleled magnanimity. It criminally punished no man for political offense, and warmly welcomed all who proved their loyalty by obeying the laws and dealing justly with their neighbors. It has steadily decreased with a firm hand the resultant disorders of the great war, and indicated a wise policy towards the Indians. The Pacific railroad and similar vast enterprises have been generally aided and successfully conducted. The public lands have been freely given to actual settlers, immigration protected and encouraged, and a full acknowledgment of naturalized citizens' rights secured from European powers. A uniform national currency has been provided, repudiation frowned down, the national credit sustained under the most extraordinary burdens, and new bonds negotiated at lower rates. The revenues have been carefully collected and honestly applied; despite the annual large reductions of the rates of taxation, the public debt has been reduced during Gen. Grant's Presidency at the rate of one hundred millions of dollars a year; a great financial crisis has been averted, and peace and plenty prevail throughout the land.—Menacing foreign difficulties have been peacefully and honorably compromised, and the honor and power of the nation kept in high respect throughout the world. This glorious record of the past is the paryt's best pledge for the future. We believe the people will not intrust the government to any party or combination of men composed chiefly of those who have resisted every step of this beneficial progress.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectually maintained throughout the Union by efficient and appropriate State and federal legislation. Neither the law nor its administration should admit of any discrimination in respect to any citizen by reason of race, creed, color or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained, because they are right, not merely tolerated because they are the law, and should be carried out, according to their spirit, by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured those amendments.

4. The national government should seek to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. Any system of civil service under which the subordinate positions of the government are considered rewards for mere party zeal is fitly demoralizing, and we therefore favor a reform of the system by laws which shall abolish the evils of patronage, and make honesty, efficiency and fidelity essential qualifications for public position, without practically creating a life tenure of office.

6. We are opposed to the further grants of public lands to corporations and monopolies, and demand that the national domain be set apart for free homes for the people.

7. The annual revenues, after paying current debts, should furnish a moderate balance for the reduction of the principal, and the revenue, except so much as may be derived from a tax on tobacco and liquors, should be raised by duties on importations, the duties of which should be so adjusted as to aid in securing remunerative wages to labor, and promote the industries, growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for their country are entitled to the care of a generous and grateful people, and we favor such additional legislation as will extend the bounty of the government to all our soldiers and sailors who were honorably discharged, and who in the line of duty became disabled, without regard to the length of time or cause of such discharge.

9. The doctrine of Great Britain and other European powers, concerning allegiance, "once a subject, always a subject," having at last through the efforts of the Republican party, been abandoned, and the American idea of an individuals's right to transfer his allegiance having been accepted by European nations, it is the duty of our government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former governments, and we urge continual and careful encouragement and protection to voluntary immigration.

10. The franking privilege ought to be abolished and the way prepared for a speedy reduction in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor, and the Republican party recognize the duty of so shaping legislation as to secure full protection and the amplest field for capital, and for labor, the creator of capital, the largest opportunities, and a just share of the mutual profits of these two great servants of civilization.

12. We hold that Congress and the President have only fulfilled an imperative duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions, and for the protection of the ballot-box, and therefore are entitled to the thanks of the nation.

13. We denounce the repudiation of the public debt, in any form or disguise, as a national crime, and we witness with pride the reduction of the principle of the debt and upon the rates of interest upon the balance, and we confidently expect that our excellent national currency will be perfected by the speedy resumption of specie payments.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to wider fields of usefulness is received with satisfaction; and the demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve the actions of Congress in extending amnesty to those lately in rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party propose to respect the rights reserved by the people themselves as carefully as the powers delegated by them to State and to federal government. It disapproves of a resort to unconstitutional laws for the purpose of removing evils by interference with rights not surrendered by the people to either the State or national government.

17. It is the duty of the general government to adopt such measures as will tend to encourage American commerce and ship building.

18. We believe that the modest patriotism, the earnest purpose, sound judgment, practical wisdom, incorruptible integrity and illustious services of Ulyssess S. Grant have commended him to the hearts of the American people, and with him at our head we start to-day on a new march to victory.

For Sight is Priceless!

The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated opticians of the world to be the **MOST PERFECT**, natural, artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

THEIR FINISH AND DURABILITY CANNOT BE SURPASSED.

CAUTION. None genuine unless bearing their trade mark stamped on every frame.

THE CAMPAIGN FOR THE UNION.

Republican meetings will be held at the times and places specified below. All who are in favor of perpetuating the Union of these States, and preserving the peace, dignity, honor and prosperity of the same; all who are opposed to the man who, in 1860, said: "If the Southern States desire to withdraw from this Union," etc., he would be willing to the same; and again, on the 19th of September, 1872, said at Pittsburg, that if the Southern people prove that they want disunion, he would consent to it; and all who are in favor of the Patriot, Soldier, and Statesman, who so nobly defended his country in its terrible baptism of blood, are not only earnestly invited, but everybody is requested to be present:

TUESDAY, OCT. 22D.

Ocean Wave School House, Milam township—C C McComas and J Hall.

WEDNESDAY, OCT. 23D.

Hon. Jos. G. Cannon's Appointments.

Hon. J. G. Cannon, Republican candidate for Congress, will address the people of Macon county as follows.

Maroa—Wednesday, Oct. 23d.
Niantic—Thursday, Oct. 24th.
Blue Mound—Friday, Oct. 25th. H. P. Parmelee.
Decatur—Saturday, Oct. 26th.
Macon—Monday, Oct. 28th.

☞ The above are all evening meetings except the mass meeting in Decatur on Monday next.

THE New York *Tribune* says that one of the most remarkable things of the campaign is the support of Grant by Ben. Butler. Haven't the Greeley papers been telling us all the time that 'reconciliation' is the watchword?—Can't Grant and Butler shake hands across a bloody chasm as well as Greeley and Jeff Davis?

LYMAN TRUMBULL.

If anything were needed to show the utter want of principle prevailing in the Confederate party, that want is supplied in the eagerness displayed by Lyman Trumbull to secure a majority in the legislature which will insure his return to the United States Senate. That gentleman, as is well known, has, through his whole political life, been actuated by the one single idea of personal aggrandizement. He has never hesitated to stultify his record and go back upon his friends, provided such a course promised to help along his own advancement. His last election to the Senate, it will be remembered, was signalized by a bitter personal fight between himself and Gov. Palmer, in which the latter charged him with making false statements concerning their private correspondence, and for which those two distinguished gentlemen still cherish towards each other feelings somewhat akin to those which the wolf experiences at sight of a fat lambkin. How he has since conducted himself, how he saw, after having expressed himself in favor of the impeachment of Andrew Johnson, that a contrary course might be made to inure to his own benefit, how he has fought the administration which a year ago he pronounced "eminently wise, patriotic and economical"—all these are too fresh in the public mind to need recall.

Since the October elections have made certain Gen. Grant's triumphant re-election, Mr. Trumbull's cloven foot has again made its appearance, and his claquers are now bending every energy to save him from defeat. To compass their desires in that direction they are ready to submit to the defeat of every candidate on their State ticket, and will swap off any other man to gain a vote for a Trumbull man in the House or Senate. The German Liberals, whose votes were assiduously sought for by placing one of their countrymen at the head of the State ticket, will find when the votes are counted out that they have been traded off most shamefully, in order to "save Trumbull." A knowledge of this fact is what is keeping Gustavus Kœrner in Chicago so much of his time. His business there is to checkmate the machinations of Trumbull and the Chicago *Tribune*, and to bring their schemes to naught.

The people may rest assured that, so far as the Liberal leaders are concerned, the contest in this State has narrowed down to an effort to "save Trumbull." They have given up everything else, and all of them—except those who are candidates for local offices—care for nothing else. If they should succeed in carrying the legislature it would be heralded abroad as a great Liberal triumph, but the Republicans of Illinois will see to it they do not succeed.

THE Atlanta (Ga.) *Herald*, which, like Mr. Greeley, suffers from an inappeasable hankering after reconciliation, said, on the morning after the election, "Dawson A. Walker represents the men who gloried in our overthrow. Vote against him to-morrow." "Governor Smith represents the men who fought for Georgia independence. Vote for him to-morrow." Walker was the Republican candidate for Governor; Smith was the Greeley candidate.

THE official vote of Pennsylvania shows a total Republican vote of 339,425, against 290,552 in 1869, and a total Democratic vote of 303,070, against 285,596 in 1869. The Republican gain is 48,890, and the Democratic and Liberal gain 18,374. The Republican vote for President in 1868 was 342,280, and 313,382 Democratic.

About Humbugs.—There is something remarkable in the avidity with which people allow themselves to be "taken in" by traveling "sharpers." To illustrate: The Pekin *Republican* says: "A traveling mountebank visited this city a few days ago, and during his stay became short of funds. His cunning, however, was equal to the situation. Passing the rear of an establishment where a physician's office had lately been closed out, he found a large number of pill boxes, which he at once appropriated and carried to his room at a well-known hotel. Procuring from a neighboring grocery store several pounds of lard, he filled the boxes with it, and in the evening he secured an eligible location on a street corner, and with lighted torch, proclaimed that he had for sale a "salve" the fame of which was world wide. A large crowd gathered round, and in less than an hour the genius had *disposed of every pill box of lard at 25 cents per box*—evening receipts amounting to nearly forty dollars." Comment is unnecessary.

THE Chicago *Journal* says that a large part of Gov. Koerner's stock in trade is his charge that "all the office-holders are for Grant." Let us see how it is in Illinois. Koerner is himself Chairman of the Board of Railroad and Warehouse Commissioners. Palmer is Governor, Trumbull is Senator, and so on!

WHAT is the cause of the increased prevalence of crime? "Doctors differ." The general opinion in this city is that the twenty-three hundred liquor saloons that are daily and nightly dispensing their liquid poison throughout the community are the chief cause, and this is doubtless the correct theory theory. Others attribute it to an alleged increase of human laziness. One philosopher writes to the Mayor that the lawyers are to blame. The lady moral reformers lay the responsibility at the doors of the "social evil." All these theories are partially correct; but in our judgment, next to the liquor traffic, the laxity with which our criminal laws are administered is the explanation of the growth of criminality. We may have laws severe enough and many enough, but if their letter and spirit may be violated with impunity, they are worse than no laws at all. Enforce the laws now on our statute books with vigor and uniformity—punish the guilty with promptness and severity—and we will warrant the speedy checking of the tide of crime and outrage which now threatens to subvert our civilization.—*Chicago Journal.*

AN engineer of the New York Central Railroad has been arrested on the charge of manslaughter, for having carelessly caused a railroad accident, which resulted in the death of some of the victims. This is a healthy indication and if followed up in every case where accidents are caused by carelessness or disobedience of railroad employees, such occurrences will be much less frequent. Too often a discharge is the only punishment visited upon such offenders.

SENATOR LEWIS, of Virginia, has made a thorough canvass of his State, and predicts that it will give 10,000 majority for Grant and Wilson in November. The October elections, he says, have settled the question beyond a peradventure, although before he had not much doubt as to how the State would go.

"SENATORIAL ICEBERG" is what the Chicago *Journal* always cooly calls Trumbull. And the "Senatorial Iceberg" is in the gulf stream that will soon "warm him up," and cause his engulphing in the gulf of political oblivion.

WELL informed people in Rhode Island predict 5,000 majority in that State for Grant.

THE Republican majority in the Legislature elect of Pennsylvania, on joint ballot, is 31.

Yesterday several men in this city were arrested by the police in certain localities forbidden by an ordinance of the city. They were taken before one of the justices, who administered fines that they so richly deserved. The respectability of the families of certain of the parties is all that shields them from exposure. We warn all such that in the future it will be useless to ask that their names shall not be published under the head of police news.

The heavy advance made on freights by the leading railroad companies this fall is certain to have a serious effect on the Western States. The crops have been unusually bountiful, and the large supply will cheapen the price. But if the producer must, in addition, pay an exorbitant rate to market his crop in the seaboard cities, the aggregate of profit left him will be smaller, with the increased production, than if he had less and received better prices.

Oysters.—The oyster season has arrived, and from this time forth they will be eagerly sought after. They are

Good for the sick—good for the well—
Good from the stew-pan—good from the shell—
Good as a roast—good as a fry—
Good to stuff turkeys with—good for a pie.

One fry this way! and let the bivalves be crisp, brown and luscious!

The attention of the Presbyterian congregation was called by their pastor, Rev. J. E. Moffett, last evening to five verses contained in the 6th chapter of Ephesians. The introduction of the sermon was an explanation of the imagery used by the different writers in the Bible, particularly that used by Paul. The connection between the different parts of the armor of the Roman warrior and the Christian graces was explained in a very profitable and instructive manner.

Illini.—Last Saturday night Batchelder's school house, in Illini township, was crowded with citizens of the neighborhood to hear the political questions of the day discussed by Capt. Joab Wilkinson. The Captain made one of his finest efforts, which was received with the greatest satisfaction by the audience. Jesse Lockhart followed with one of his characteristic speeches, pouring hot shot in the Greeley ranks, and holding up the treachery of the transferable Democrats to the scorn of those who refuse to be sold out.

If you want a square meal, the best place in the city to get it is at the St Nicholas. Try it once, and you will go often.

Wanted.—Board in a private family, by a single gentleman. Address "Republican Office," stating residence, &c. Best of references given.

...Mr. Bassett, assistant editor of the Springfield *Journal*, is here attending the Morton mass meeting.

Earnings of the Illinois Central Railroad.

FROM WASHINGTON.

WASHINGTON, October 20.—The Secretary of the Treasury has authorized the Assistant Treasurers and Depositaries to commence the payment of interest maturing on November 1, 1872, on Monday, the twenty-first instant, without rebate.

The conversation in official circles relative to the mission of the expected delegations from Philadelphia and the West, who, it is alleged, come to urge upon the Secretary of the Treasury the propriety of reissuing the $44,000,000 of legal-tenders retired by Secretary McCulloch, is very unfavorable to the success of said mission. Such an action on the part of the Secretary would, it is claimed, leave him at the mercy of the New York cliques, and it is therefore considered that Mr. Boutwell will only draw on his reserve when actually necessary.

The Department has received dispatches during the past week indicating that the Indians in the northwest continue to exhibit a war-like and hostile spirit, and may give, at least, temporary trouble upon the line of the Northern Pacific railroad. The War Department will, however, at the proper time, place along the route an ample force to keep the Indians at a safe distance, and give protection to the large numbers of laborers engaged in constructing the road.—The contractors are pushing the work of construction with wonderful rapidity and success.

FROM NEW YORK.

BUFFALO, N. Y., October 20.—The horse disease which has lately prevailed at Toronto and other Canadian towns has broken out among the horses here, having, it is conjectured, been brought across by the horses driven by the Governor-General of Canada here. Nearly all the horses in the livery stables throughout the city are affected. The street railway company, half of its horses unfit for work, is running fewer cars than usual. The symptoms of the disease are a running at the nostrils, accompanied by a severe cough. The disease is not fatal, but great care is necessary to insure recovery.

FROM ILLINOIS.

SPRINGFIELD, ILL., October 19.—The official statement of the gross earnings of the Illinois Central Railroad for the six months ending April 30, 1872, was received at the office of the State Auditor. The amount of earnings is $3,158,597 62, seven per cent. of which is $221,101 83.

CHICAGO, Oct. 20.—With the exception of three or four beer saloons, all the liquor saloons in the city closed their places at midnight on Saturday to Monday morning, in accordance with the notification of the Superintendent of Police. Up to eleven o'clock this evening the total number of arrests for the day was nine. The few who to-day sold liquor will to-morrow be cited to appear at the police court.

FROM OHIO.

COLUMBUS, Oct. 20.—The official returns have been received from all the counties in Ohio, and show the following Republican majorities for State officers

For Secretary of State, Allen Wikoff, 14055 maj.

For Supreme Judge, John Welch, 10870 maj.

For member of the Board of Public Works, Richard P. Porter, 16155 maj.

The total vote cast for Secretary of State was 520 037, which is the largest vote ever cast in Ohio for any officer.

SOUTH CAROLINA.

CHARLESTON, Oct. 20.—Advices from all sections of the State show that the amendment to the State constitution, prohibiting any increase of the State debt, has been ratified by an overwhelming affirmative vote, both parties very generally endorsed the measure

FROM PENNSYLVANIA.

PITTSBURG, Oct. 20.—The following petition has been signed by a large number of the heaviest firms in Pittsburg, and will be presented early in the week to the Secretary of the Treasury by a large delegation of the most influential business men, who will be met at Washington City by delegations representing a large portion of the principal cities west of the Alleghenies:

Hon. J. S. Boutwell, Secretary of the Treasury, Washington:

SIR—The growth and increase of the industrial interests of this country, and the material wealth, so unprecedentedly augmented during the past four years, especially require, in our judgment, increased facilities for the transaction of the internal commerce of the country, and more particularly at this time of the year; and while we entertain the highest respect for the great financial ability which has characterized your administration of the finances of the government, and are, therefore, the more reluctant to make any suggestions or recommendations which might not accord with your judgment in the promises, we would, nevertheless, most respectfully suggest whether a reissue of the notes commonly known as greenbacks, amounting to $44,000,000, which were retired by your predecessor, Mr. McCullough, might not, with great benefit to the industrial interests of the country, be reissued in exchange for the interest bearing loan of the government without seriously interfering with the policy you have so steadily and successfully kept in view, of appreciating the public credit. If this can be done it would afford a measure of relief from the present monetary stringency which so seriously embarrasses the business interests of the country.

WITH this month the celebrated German gambling saloons of Baden, Spa, and other noted places, are to be closed forever. The proprietors have thus far solicited, without success, license for their occupation from other European governments.

THE *Titusville Press* says. "Titusville was not the birthplace of 'the Father of his Country,' but we have a man residing here who slipped up on a muddy crossing this forenoon and sat down on a roll of butter which he was carrying home, and, instead of swearing, he simply arose, scraped the butter from his pants into the paper again, and went on again as if nothing had happened."

...They tell about a man in Clinton who heard that well water could be purified with lime, so he emptied a bushel and a half into his well, and felt blissful and happy. It turned out that, because of the dryness of the season, there was only 3 feet of water in the well, and ever since his experiment he has been selling a good article of whitewash to his neighbors at two buckets for a cent, and walked a mile and a half to the creek for drinking water for his family. He has his doubts now about lime being a good purifier.

The people want a public market.—Shall we have one?

NATIONAL THANKSGIVING

Proclamation by the President.

WASHINGTON, October 11.—By the President of the United States of America: A proclamation. Whereas, The revolution of another year has again brought the time when it is usual to look back upon the past and publicly thank the Almighty for his mercies and his blessings; and,

Whereas, If any one people has more occasion than another for such thankfulness it is the citizens of the United States, whose government is their creature, subject to their behests; who have reserved to themselves ample civil and religious freedom and equality before the law; who, during the last twelve months have enjoyed exemption from any grevious or general calamity, and to whom prosperity in agriculture, manufactures and commerce has been vouchsafed,—Therefore, in view of these considerations, I recommend that on Thursday, the twenty eighth day of November next, the people meet in their respective places of worship and there make their acknowledgements to God for His kindness and bounty.

In witness whereof I hereunto set my hand and cause the seal of the United States to be affixed. Done at the city of Washington, on this, the eleventh day of October, in the year of our Lord 1872, and of the independence of the United States the ninety-seventh.

Hallet, Davis & Co. Pianos.

This eminent German song-writer, author of "When the Swallows Homeward Fly," &c., says:

"One of the most pleasant surprises that have been afforded me in America has been in the listening to the magnificent Pianos manufactured in this country. Their reputation in Europe has always been of the first order, but it was not until my arrival here that I was given an opportunity to hear and carefully judge of all their merits.

"In the superb instruments manufactured by Hallet, Davis & Co., and used at all the concerts of the Great Boston Jubilee, there was combined a strength and purity of tone, elegance of finish, and those peculiar lasting qualities of rich sound and elaborate general workmanship—without which no Piano can be considered thoroughly good—such as I have never known to be surpassed. I believe their Pianos to be as near absolute perfection as it is possible for the instrument to be brought."

Franz Bendel

AND THE

Hallet, Davis & Co. Pianos.

During my sojourn at Boston, at the time of the World's Peace Jubilee, it was of the greatest interest to me to become acquainted with and play the Grand Piano of Messrs. Hallet, Davis & Co. I was filled with astonishment that these Grand Pianos were *so grand* in their power of tone that they filled the vast spaces of the Coliseum, the largest concert hall in the world, and that they perfectly satisfy every demand made regarding touch, delicacy of expression, and power of tone. I coincide with the opinion of Dr. Franz Liszt and other celebrated Pianists, who, in their judgment, have placed these instruments among the first and most excellent manufactured in America.

☞ The above are all evening meetings except the mass meeting in Decatur on Monday next.

THE New York *Tribune* says that one of the most remarkable things of the campaign is the support of Grant by Ben. Butler. Haven't the Greeley papers been telling us all the time that "reconciliation" is the watchword?—Can't Grant and Butler shake hands across a bloody chasm as well as Greeley and Jeff Davis?

LYMAN TRUMBULL.

If anything were needed to show the utter want of principle prevailing in the Confederate party, that want is supplied in the eagerness displayed by Lyman Trumbull to secure a majority in the legislature which will insure his return to the United States Senate. That gentleman, as is well known, has, through his whole political life, been actuated by the one single idea of personal aggrandizement. He has never hesitated to stultify his record and go back upon his friends, provided such a course promised to help along his own advancement. His last election to the Senate, it will be remembered, was signalized by a bitter personal fight between himself and Gov. Palmer, in which the latter charged him with making false statements concerning their private correspondence, and for which those two distinguished gentlemen still cherish towards each other feelings somewhat akin to those which the wolf experiences at sight of a fat lambkin. How he has since conducted himself, how he saw, after having expressed himself in favor of the impeachment of Andrew Johnson, that a contrary course might be made to inure to his own benefit, how he has fought the administration which a year ago he pronounced "eminently wise, patriotic and economical"—all these are too fresh in the public mind to need recall.

Since the October elections have made certain Gen. Grant's triumphant re-election, Mr. Trumbull's cloven foot has again made its appearance, and his claquers are now bending every energy to save him from defeat. To compass their desires in that direction they are ready to submit to the defeat of every candidate on their State ticket, and will swap off any other man to gain a vote for a Trumbull man in the House or Senate. The German Liberals, whose votes were assiduously sought for by placing one of their countrymen at the head of the State ticket, will find when the votes are counted out that they have been traded off most shamefully, in order to "save Trumbull." A knowledge of this fact is what is keeping Gustavus Koerner in Chicago so much of his time. His business there is to checkmate the machinations of Trumbull and the Chicago *Tribune*, and to bring their schemes to naught

The people may rest assured that, so far as the Liberal leaders are concerned, the contest in this State has narrowed down to an effort to "save Trumbull." They have given up everything else, and all of them—except those who are candidates for local offices—care for nothing else. If they should succeed in carrying the legislature it would be heralded abroad as a great Liberal triumph, but the Republicans of Illinois will see to it they do not succeed.

THE Atlanta (Ga.) *Herald*, which, like Mr. Greeley, suffers from an inappeasable hankering after reconciliation, said, on the morning after the election, "Dawson A. Walker represents the men who gloried in our overthrow. Vote against him to-morrow." "Governor Smith represents the men who fought for Georgia independence Vote for him to-morrow." Walker was the Republican candidate for Governor; Smith was the Greeley candidate.

THE official vote of Pennsylvania shows a total Republican vote of 339,425, against 290,552 in 1869, and a total Democratic vote of 303,070, against 285,596 in 1869. The Republican gain is 48,890, and the Democratic and Liberal gain 18,371. The Republican vote for President in 1868 was 342,280, and 313,382 Democratic.

About Humbugs.—There is something remarkable in the avidity with which people allow themselves to be "taken in" by traveling "sharpers." To illustrate: The Pekin *Republican* says: "A travelling mountebank visited this city a few days ago, and during his stay became short of funds. His cunning, however, was equal to the situation. Passing the rear of an establishment where a physician's office had lately been closed out, he found a large number of pill boxes, which he at once appropriated and carried to his room at a well-known hotel Procuring from a neighboring grocery store several pounds of lard, he filled the boxes with it, and in the evening he secured an eligible location on a street corner, and with lighted torch, proclaimed that he had for sale a "salve" the fame of which was world wide A large crowd gathered round, and in less than an hour the genius had *disposed of every pill box of lard at 25 cents per box*—evening receipts amounting to nearly forty dollars" Comment is unnecessary.

THE Chicago *Journal* says that a large part of Gov. Koerner's stock in trade is his charge that "all the office-holders are for Grant" Let us see how it is in Illinois Koerner is himself Chairman of the Board of Railroad and Warehouse Commissioners Palmer is Governor, Trumbull is Senator, and so on!

WHAT is the cause of the increased prevalence of crime? "Doctors differ." The general opinion in this city is that the twenty-three hundred liquor saloons that are daily and nightly dispensing their liquid poison throughout the community are the chief cause, and this is doubtless the correct theory theory. Others attribute it to an alleged increase of human laziness. One philosopher writes to the Mayor that the lawyers are to blame. The lady moral reformers lay the responsibility at the doors of the "social evil." All these theories are partially correct; but in our judgment, next to the liquor traffic, the laxity with which our criminal laws are administered is the explanation of the growth of criminality. We may have laws severe enough and many enough, but if their letter and spirit may be violated with impunity, they are worse than no laws at all. Enforce the laws now on our statute books with vigor and uniformity—punish the guilty with promptness and severity—and we will warrant the speedy checking of the tide of crime and outrage which now threatens to subvert our civilization.—*Chicago Journal.*

AN engineer of the New York Central Railroad has been arrested on the charge of manslaughter, for having carelessly caused a railroad accident, which resulted in the death of some of the victims. This is a healthy indication and if followed up in every case where accidents are caused by carelessness or disobedience of railroad employees, such occurrences will be much less frequent. Too often a discharge is the only punishment visited upon such offenders.

SENATOR LEWIS, of Virginia, has made a thorough canvass of his State, and predicts that it will give 10,000 majority for Grant and Wilson in November. The October elections, he says, have settled the question beyond a peradventure, although before he had not much doubt as to how the State would go.

"SENATORIAL ICEBERG" is what the Chicago *Journal* always cooly calls Trumbull. And the "Senatorial Iceberg" is in the gulf stream that will soon "warm him up," and cause his engulphing in the gulf of political oblivion.

WELL informed people in Rhode Island predict 5,000 majority in that State for Grant.

THE Republican majority in the Legislature elect of Pennsylvania, on joint ballot, is 31.

Yesterday several men in this city were arrested by the police in certain localities forbidden by an ordinance of the city. They were taken before one of the justices, who administered fines that they so richly deserved. The respectability of the families of certain of the parties is all that shields them from exposure. We warn all such that in the future it will be useless to ask that their names shall not be published under the head of police news.

The heavy advance made on freights by the leading railroad companies this fall is certain to have a serious effect on the Western States. The crops have been unusually bountiful, and the large supply will cheapen the price. But if the producer must, in addition, pay an exorbitant rate to market his crop in the seaboard cities, the aggregate of profit left him will be smaller, with the increased production, than if he had less and received better prices.

Oysters.—The oyster season has arrived, and from this time forth they will be eagerly sought after. They are
Good for the sick—good for the well—
Good from the stew-pan—good from the shell—
Good as a roast—good as a fry—
Good to stuff turkeys with—good for a pie.
One fry this way! and let the bivalves be crisp, brown and luscious!

The attention of the Presbyterian congregation was called by their pastor, Rev. J. E. Moffett, last evening to five verses contained in the 6th chapter of Ephesians. The introduction of the sermon was an explanation of the imagery used by the different writers in the Bible, particularly that used by Paul. The connection between the different parts of the armor of the Roman warrior and the Christian graces was explained in a very profitable and instructive manner.

Illini.—Last Saturday night Batchelder's school house, in Illini township, was crowded with citizens of the neighborhood to hear the political questions of the day discussed by Capt. Joab Wilkinson. The Captain made one of his finest efforts, which was received with the greatest satisfaction by the audience. Jesse Lockhart followed with one of his characteristic speeches, pouring hot shot in the Greeley ranks, and holding up the treachery of the transferable Democrats to the scorn of those who refuse to be sold out.

If you want a square meal, the best place in the city to get it is at the St Nicholas. Try it once, and you will go often.

Wanted.—Board in a private family, by a single gentleman Address "Republican Office," stating residence, &c. Best of references given.

...Mr. Bassett, assistant editor of the Springfield *Journal*, is here attending the Morton mass meeting.

Earnings of the Illinois Central Railroad.

FROM WASHINGTON.

WASHINGTON, October 20.—The Secretary of the Treasury has authorized the Assistant Treasurers and Depositaries to commence the payment of interest maturing on November 1, 1872, on Monday, the twenty-first instant, without rebate.

The conversation in official circles relative to the mission of the expected delegations from Philadelphia and the West, who, it is alleged, come to urge upon the Secretary of the Treasury the propriety of reissuing the $44,000,000 of legal-tenders retired by Secretary McCulloch, is very unfavorable to the success of said mission. Such an action on the part of the Secretary would, it is claimed, leave him at the mercy of the New York cliques, and it is therefore considered that Mr. Boutwell will only draw on his reserve when actually necessary.

The Department has received dispatches during the past week indicating that the Indians in the northwest continue to exhibit a war-like and hostile spirit, and may give, at least, temporary trouble upon the line of the Northern Pacific railroad. The War Department will, however, at the proper time, place along the route an ample force to keep the Indians at a safe distance, and give protection to the large numbers of laborers engaged in constructing the road.—The contractors are pushing the work of construction with wonderful rapidity and success.

FROM NEW YORK.

BUFFALO, N. Y., October 20.—The horse disease which has lately prevailed at Toronto and other Canadian towns has broken out among the horses here, having, it is conjectured, been brought across by the horses driven by the Governor-General of Canada here. Nearly all the horses in the livery stables throughout the city are affected. The street railway company, half of its horses unfit for work, is running fewer cars than usual The symptoms of the disease are a running at the nostrils, accompanied by a severe cough. The disease is not fatal, but great care is necessary to insure recovery.

FROM ILLINOIS.

SPRINGFIELD, ILL., October 19.—The official statement of the gross earnings of the Illinois Central Railroad for the six months ending April 30, 1872, was received at the office of the State Auditor. The amount of earnings is $3,158,597 62, seven per cent. of which is $221,101 83.

CHICAGO, Oct. 20.—With the exception of three or four beer saloons, all the liquor saloons in the city closed their places at midnight on Saturday to Monday morning, in accordance with the notification of the Superintendent of Police. Up to eleven o'clock this evening the total number of arrests for the day was nine. The few who to-day sold liquor will to-morrow be cited to appear at the police court.

FROM OHIO.

COLUMBUS, Oct. 20.—The official returns have been received from all the counties in Ohio, and show the following Republican majorities for State officers

For Secretary of State, Allen Wikoff, 14055 maj.

For Supreme Judge, John Welch, 10870 maj.

For member of the Board of Public Works, Richard P Porter, 16155 maj.

The total vote cast for Secretary of State was 520 037, which is the largest vote ever cast in Ohio for any officer.

SOUTH CAROLINA.

CHARLESTON, Oct. 20.—Advices from all sections of the State show that the amendment to the State constitution, prohibiting any increase of the State debt, has been ratified by an overwhelming affirmative vote, both parties very generally endorsed the measure

FROM PENNSYLVANIA.

PITTSBURG, Oct. 20.—The following petition has been signed by a large number of the heaviest firms in Pittsburg, and will be presented early in the week to the Secretary of the Treasury by a large delegation of the most influential business men, who will be met at Washington City by delegations representing a large portion of the principal cities west of the Alleghenies:

Hon. J. S. Boutwell, Secretary of the Treasury, Washington:

SIR—The growth and increase of the industrial interests of this country, and the material wealth, so unprecedentedly augmented during the past four years, especially require, in our judgment, increased facilities for the transaction of the internal commerce of the country, and more particularly at this time of the year; and while we entertain the highest respect for the great financial ability which has characterized your administration of the finances of the government, and are, therefore, the more reluctant to make any suggestions or recommendations which might not accord with your judgment in the premises, we would, nevertheless, most respectfully suggest whether a reissue of the notes commonly known as greenbacks, amounting to $44,000,000, which were retired by your predecessor, Mr. McCullough, might not, with great benefit to the industrial interests of the country, be reissued in exchange for the interest bearing loan of the government without seriously interfering with the policy you have so steadily and successfully kept in view, of appreciating the public credit. If this can be done it would afford a measure of relief from the present monetary stringency which so seriously embarrasses the business interests of the country.

WITH this month the celebrated German gambling saloons of Baden, Spa, and other noted places, are to be closed forever. The proprietors have thus far solicited, without success, license for their occupation from other European governments.

THE *Titusville Press* says. "Titusville was not the birthplace of 'the Father of his Country,' but we have a man residing here who slipped up on a muddy crossing this forenoon and sat down on a roll of butter which he was carrying home, and, instead of swearing, he simply arose, scraped the butter from his pants into the paper again, and went on again as if nothing had happened."

...They tell about a man in Clinton who heard that well water could be purified with lime, so he emptied a bushel and a half into his well, and felt blissful and happy. It turned out that, because of the dryness of the season, there was only 3 feet of water in the well, and ever since his experiment he has been selling a good article of whitewash to his neighbors at two buckets for a cent, and walked a mile and a half to the creek for drinking water for his family. He has his doubts now about lime being a good purifier.

The people want a public market.—Shall we have one?

NATIONAL THANKSGIVING

Proclamation by the President.

WASHINGTON, October 11.—By the President of the United States of America: A proclamation. Whereas, The revolution of another year has again brought the time when it is usual to look back upon the past and publicly thank the Almighty for his mercies and his blessings; and,

Whereas, If any one people has more occasion than another for such thankfulness it is the citizens of the United States, whose government is their creature, subject to their behests; who have reserved to themselves ample civil and religious freedom and equality before the law; who, during the last twelve months have enjoyed exemption from any grevious or general calamity, and to whom prosperity in agriculture, manufactures and commerce has been vouchsafed,—Therefore, in view of these considerations, I recommend that on Thursday, the twenty eighth day of November next, the people meet in their respective places of worship and there make their acknowledgements to God for His kindness and bounty.

In witness whereof I hereunto set my hand and cause the seal of the United States to be affixed. Done at the city of Washington, on this, the eleventh day of October, in the year of our Lord 1872, and of the independence of the United States the ninety-seventh.

AND THE

Hallet, Davis & Co. Pianos.

During my sojourn at Boston, at the time of the World's Peace Jubilee, it was of the greatest interest to me to become acquainted with and play the Grand Piano of Messrs. Hallet, Davis & Co. I was filled with astonishment that these Grand Pianos were *so grand* in their power of tone that they filled the vast spaces of the Coliseum, the largest concert hall in the world, and that they perfectly satisfy every demand made regarding touch, delicacy of expression, and power of tone.

I coincide with the opinion of Dr. Franz Liszt and other celebrated Pianists, who, in their judgment, have placed these instruments among the first and most excellent manufactured in America.

(Signed) FRANZ BENDEL.

All these Pianos, both grand and square, can be seen in Decatur in large numbers, with a variety of other manufactures, at the Music Hall.

...The Mattoon *Journal* says: "200 teams are making the dirt fly on the northwest end of the Decatur, Sullivan & Mattoon railroad, and Ed. Keyes tells us that it will go through to Decatur in November - soon after Grant is re-elected."

..Little Boy—"Be you the drug man?" Druggist—"Yes, sonny; what can I do for you?" Little Boy—"Dad has get 'em again! His boots is full of 'em, and he's a howlin' like thunder, and mother sent me over to get suthin' for him quick." Druggist—"What does he want?" Little Boy—"Don't know, but he's yelling' for anything to beat Grant!"

Stray Straws from the Police Courts.—John McCaffrony was fined $3 and costs by Justice Baker for an assault and battery.

Jerad Green, the medicine man, violated the auctioneering ordinance, for which he paid $25 and costs. This illustrious gentleman will be compelled to hollow at least an hour to sell enough medicine to pay his fine. The Justice wasn't of the opinion that his medicine was better than greenbacks; he didn't take any of the medicine in pay for the fine.

Philip Bloom is a member of the sewing machine fraternity. Some of the members of this numerous fraternity had a discussion last Saturday about the sale of a machine; some very indelicate epithets were applied; several little fists were wielded, and heavy arguments in the shape of a fire shovel were used. One of the aforesaid gentlemen was made the happy recipient of a fearful blow on the side of the head, for which Philip Bloom, the user of the shovel, was fined $25 and costs.

Rosa Madden being duly sworn says that she lives in Cincinnati and has a family there; her brother in St. Louis wrote for her to come to that point and he would meet her. She left her children in the care of relatives and went to the "future great city," but alas! her brother was not there to meet her. After working in St. Louis for several days she earned enough money to pay her fare to Springfield, Ill.; there she was taken charge of by the county authorities and placed in the poor house, but the climate did not agree with her, so she came to Decatur. Feeling fatigued and tired, she obtained a supply of the extract of crow, drinking the same. Her neighbors then objected to her making a fuss. She was arrested and fined $3 and costs by Justice Albert.

Baptist Church Yesterday.—The Baptist Church was filled yesterday morning to hear Rev. J. C. Bonham, who has just been called to the pastorship of the church in this city. Rev. Mr. Bonham has been a very successful minister in his former pastorates, and we think will be as successful in this place. His text was the last clause of the first verse of the first chapter of Corinthians. The discourse was short and interesting. Mr. B. has a peculiarly interesting manner of expressing himself. The points to which he called special attention were, Christ the power of God; the cross the gift of God. The convincing, the spiritual, and the sanctifying power of the cross were each spoken of in their order.

We would call attention to the music at this church We were very much surprised to find voices of such exquisite sweetness and culture in our midst. We do not remember of ever hearing better vocal and instrumental music from unprofessionals.

The Water Street R. R. Crossing.—There are but few persons in this world that have not a "hobby." We have one. Our readers have, no doubt, discovered the same fact. We have frequently called the attention of the people and of the city council to the fact that a watchman was necessary at the Water street crossing of the T. W. & W. R. R. We do not know who is responsible for the damage already done at this point, but certainly our city council have the power to force the railroad to provide for the safety of those whose business compels them to cross at this point. About a week ago a man was thrown from his wagon and severely injured, perhaps for life, and his wagon was entirely demolished. And yet no notice was taken of it by the city council.

This morning a team of mules, driven by some man whose name we were unable to learn, became frightened at the cars at this point, started down Water street at a break-neck pace, throwing the man under the wheels of the wagon, and inflicting some very severe wounds. We do hope that this is the last time it will be necessary for us to call attention to this railroad crossing.

Advertise.—Considerable money is being put in circulation just now, by the sales of wheat, corn and oats. Our merchants should remember this and advertise liberally, thereby letting the people know where the best goods and bargains can be obtained. Every shrewd and energetic business man will, in order to succeed, keep his name and business prominently before the public, and in no way can he do this so effectually as to advertise in a well regulated paper.

Too Quick on the Trigger.—As the shooting season is fast approaching, we would utter a word of caution, not only to young beginners, but also to even old shootists. This word shall be in reference to shooting too quickly. Few gunners—even those who have shot many seasons—are correct judges of distance, and hence all shoot before the birds are well away.—The *Turf, Field and Farm* says: "We confess that we ourselves, though having shot a good deal, are apt to get excited and shoot too soon. In our judgment between thirty and forty yards is the proper distance. We have no doubt in our minds that for one bird shot between these distances fifty are killed under twenty. Gentlemen, sportsmen, all remember—keep cool, let your bird get well away, then shoot. You, by doing this, do not mutilate your game, but kill it just as well, and instead of being a ragged mass of flesh and feathers, you have a bird to be proud of."

...The Mattoon *Journal* says: "250 teams are making the dirt fly on the northwest end of the Decatur, Sullivan & Mattoon railroad, and Ed. Reves tells us that it will go through to Decatur in November - soon after Grant is re-elected."

..Little Boy—"Be you the drug man?" Druggist—"Yes, sonny; what can I do for you?" Little Boy—"Dad has got 'em again! His boots is full of 'em, and he's a howlin' like thunder, and mother sent me over to get suthin' for him quick." Druggist—"What does he want?" Little Boy—"Don't know, but he's yelling' for anythin' to beat Grant!"

Stray Straws from the Police Courts.—John McCaffrony was fined $3 and costs by Justice Baker for an assault and battery.

Jerad Green, the medicine man, violated the auctioneering ordinance, for which he paid $25 and costs. This illustrious gentleman will be compelled to hollow at least an hour to sell enough medicine to pay his fine. The Justice wasn't of the opinion that his medicine was better than greenbacks; he didn't take any of the medicine in pay for the fine.

Philip Bloom is a member of the sewing machine fraternity. Some of the members of this numerous fraternity had a discussion last Saturday about the sale of a machine; some very indelicate epithets were applied; several little fists were wielded, and heavy arguments in the shape of a fire shovel were used. One of the aforesaid gentlemen was made the happy recipient of a fearful blow on the side of the head, for which Philip Bloom, the user of the shovel, was fined $25 and costs.

Rosa Madden being duly sworn says that she lives in Cincinnati and has a family there; her brother in St. Louis wrote for her to come to that point and he would meet her. She left her children in the care of relatives and went to the "future great city," but alas! her brother was not there to meet her. After working in St. Louis for several days she earned enough money to pay her fare to Springfield, Ill.; there she was taken charge of by the county authorities and placed in the poor house, but the climate did not agree with her, so she came to Decatur. Feeling fatigued and tired, she obtained a supply of the extract of crow, drinking the same. Her neighbors then objected to her making a fuss. She was arrested and fined $3 and costs by Justice Albert.

Baptist Church Yesterday.—The Baptist Church was filled yesterday morning to hear Rev. J. C. Bonham, who has just been called to the pastorship of the church in this city. Rev. Mr. Bonham has been a very successful minister in his former pastorates, and we think will be as successful in this place. His text was the last clause of the first verse of the first chapter of Corinthians. The discourse was short and interesting. Mr. B. has a peculiarly interesting manner of expressing himself. The points to which he called special attention were, Christ the power of God; the cross the gift of God. The convincing, the spiritual, and the sanctifying power of the cross were each spoken of in their order.

We would call attention to the music at this church We were very much surprised to find voices of such exquisite sweetness and culture in our midst. We do not remember of ever hearing better vocal and instrumental music from unprofessionals.

The Water Street R. R. Crossing.—There are but few persons in this world that have not a "Hobby." We have one. Our readers have, no doubt, discovered the same fact. We have frequently called the attention of the people and of the city council to the fact that a watchman was necessary at the Water street crossing of the T. W. & W. R. R. We do not know who is responsible for the damage already done at this point, but certainly our city council have the power to force the railroad to provide for the safety of those whose business compels them to cross at this point. About a week ago a man was thrown from his wagon and severely injured, perhaps for life, and his wagon was entirely demolished. And yet no notice was taken of it by the city council.

This morning a team of mules, driven by some man whose name we were unable to learn, became frightened at the cars at this point, started down Water street at a break-neck pace, throwing the man under the wheels of the wagon, and inflicting some very severe wounds. We do hope that this is the last time it will be necessary for us to call attention to this railroad crossing.

Advertise.—Considerable money is being put in circulation just now, by the sales of wheat, corn and oats. Our merchants should remember this and advertise liberally, thereby letting the people know where the best goods and bargains can be obtained. Every shrewd and energetic business man will, in order to succeed, keep his name and business prominently before the public, and in no way can he do this so effectually as to advertise in a well regulated paper.

Too Quick on the Trigger.—As the shooting season is fast approaching, we would utter a word of caution, not only to young beginners, but also to even old shootists. This word shall be in reference to shooting too quickly. Few gunners—even those who have shot many seasons—are correct judges of distance, and hence all shoot before the birds are well away.—The *Turf, Field and Farm* says: "We confess that we ourselves, though having shot a good deal, are apt to get excited and shoot too soon. In our judgment between thirty and forty yards is the proper distance. We have no doubt in our minds that for one bird shot between these distances fifty are killed under twenty. Gentlemen, sportsmen, all remember—keep cool, let your bird get well away, then shoot. You, by doing this, do not mutilate your game, but kill it just as well, and instead of being a ragged mass of flesh and feathers, you have a bird to be proud of."

REASONS

For Purchasing a

Steinway Piano!

FIRST:

THE STEINWAY PIANOS have been awarded the

First Premium

Everywhere, by the most competent and inflexible judges the world can produce, many of whom were previously prejudiced in favor of other instruments, their crowning triumph having been achieved at the Universal Exposition in Paris, where Steinway & Sons were awarded

The First Gold Medal!

For American Pianos, by the UNANIMOUS VERDICT of the International Jury, and placed at the head of all others—the United States not being represented among the jurors.

SECOND:

All their "scales," peculiarities of construction, and various improvements, have been copied by nearly all the American piano manufacturers, and also by a large number of celebrated European makers. As an incontrovertible proof of the great superiority of the New Over-Strung Piano System introduced by Steinway & Sons, the fact may be stated that, at the Paris Exposition, out of eleven exhibitors of Pianos constructed after the Steinway System, two received Gold Medals (the *first* and *third* prizes), and eight received silver medals, while, of over three hundred pianos exhibited on the old plan of construction, with straight strings, only three received gold medals, and twenty-two silver medals—a proportion of

"A Complete Pictorial History of the Times."

"The best, cheapest, and most successful Family Paper in the Union."

Harper's Weekly.

Splendidly Illustrated,

Notices of the Press:

The Model Newspaper of our country.—Complete in all the departments of an American Family Paper, Harper's Weekly has earned for itself a right to its title, "A Journal of Civilization."—*New York Evening Post.*

The best publication of its class in America, and so far ahead of all other weekly journals as not to permit of any comparison between it and any of their number. Its columns contain the finest collections of reading-matter that are printed. * * * Its illustrations are numerous and beautiful being furnished by the chief artists of the country.—*Boston Traveller.*

Harper's Weekly is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone—Its reading-matter is of a high order of literary merit—varied, instructive, entertaining and unexceptionable.—*N. Y. Sun.*

SUBSCRIPTIONS.—1872.

TERMS.

Harper's Weekly, one year....$4 00

An Extra Copy of either the Magazine, Weekly or Bazar, will be supplied gratis for every Club of Five Subscribers at $4 00 each in one remittance; or, Six Copies for $20 00, without extra copy.

Subscriptions to Harper's Magazine, Weekly, and Bazar, to one address for one year $10 00; or, two of Harper's Periodicals, to one address for one year, $7 00.

Back Numbers can be supplied at any time.

The Annual Volumes of Harper's Weekly, in neat cloth binding, will be sent by express free of expense, for $7 00 each. A complete Set, comprising *Fifteen Volumes*, sent on receipt of cash at the rate of $5 25 per vol., freight at expense of purchaser.

The postage on Harper's Weekly is 20 cents a year, which must be paid at the *subscriber's* post-office. Address

HARPER & BROTHERS, New York.

"Unquestionably the Best Sustained Work of the kind in the World."

Harper's Magazine

Notices of the Press:

There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—*New England Homestead.*

A repository of biography and history, literature, science and art unequaled by any other American publication. * * * The volumes are as valuable as a mere work of reference as any cyclopedia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordan—indeed all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—*N. Y. Standard.*

It is one of the wonders of journalism—the editorial management of Harper's.—*The Nation, N. Y.*

Great Improvement

IN THE

WHEELER & WILSON Sewing Machine.

[TRADE]

[MARK.]

Buy it because it will do better work in one-fourth less time than any other machine, and because as recently improved it is much easier learned than any other.

No Change of Tension

Necessary in sewing different thicknesses. Neither the threads nor the cloth require holding. Seams are crossed with ease and the work guided with scarce an effort.

The Wheeler & Wilson

Has no under tension to manage, every joint can be tightened as fast as it wears. Has the best and most readily adjusted attachments, runs very easy, has nearly double its former power, and is the handsomest and best constructed machine before the public.

OVER 550,000

Have been Manufactured.

100,000 MORE

REASONS

For Purchasing a

Steinway Piano!

FIRST: !

THE STEINWAY PIANOS have been awarded the

First Premium

Everywhere, by the most competent and inflexible judges the world can produce, many of whom were previously prejudiced in favor of other Instruments, their crowning triumph having been achieved at the Universal Exposition in Paris, where Steinway & Sons were awarded

The First Gold Medal!

For American Pianos, by the UNANIMOUS VERDICT of the International jury, and placed at the head of all others—the United States not being represented among the jurors.

SECOND:

All their "scales," peculiarities of construction, and various improvements, have been copied by nearly all the American piano manufacturers, and also by a large number of celebrated European makers. As an incontrovertible proof of the great superiority of the New Over-Strung Piano System introduced by Steinway & Sons, the fact may be stated that, at the Paris Exposition, out of eleven exhibitors of Pianos constructed after the Steinway System, two received Gold Medals (the *first* and *third* prizes), and eight received silver medals, while, of over three hundred pianos exhibited on the old plan of construction, with straight strings, only three received gold medals, and twenty-two silver medals—a proportion of

"A Complete Pictorial History of the Times."

"The best, cheapest, and most successful Family Paper in the Union."

Harper's Weekly.

Splendidly Illustrated,

Notices of the Press:

The Model Newspaper of our country.—Complete in all the departments of an American Family Paper, Harper's Weekly has earned for itself a right to its title, "A Journal of Civilization."—*New York Evening Post.*

The best publication of its class in America, and so far ahead of all other weekly journals as not to permit of any comparison between it and any of their number. Its columns contain the finest collections of reading-matter that are printed. * * * Its illustrations are numerous and beautiful being furnished by the chief artists of the country.—*Boston Traveller.*

Harper's Weekly is the best and most interesting illustrated newspaper. Nor does its value depend on its illustrations alone—Its reading-matter is of a high order of literary merit—varied, instructive, entertaining and unexceptionable.—*N. Y. Sun.*

SUBSCRIPTIONS.—1872.

TERMS.

Harper's Weekly, one year..............$4 00

An Extra Copy of either the Magazine, Weekly or Bazar, will be supplied gratis for every Club of Five Subscribers at $4 00 each in one remittance; or, Six Copies for $20 00, without extra copy.

HARPER & BROTHERS, New York.

"Unquestionably the Best Sustained Work of the kind in the World."

Harper's Magazine

Notices of the Press:

There are few intelligent American families in which Harper's Magazine would not be an appreciated and highly welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—*New England Homestead.*

A repository of biography and history, literature, science and art unequaled by any other American publication. * * The volumes are as valuable as a mere work of reference as any cyclopedia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its establishment. Livingstone and Gordon Cumming in Africa, Strain among the Andes and Ross Browne in the East, Speke on the Nile and Macgregor on the Jordan—indeed all recent travellers of note have seen their most important discoveries reproduced in these pages. Most of our younger and many of our older writers find here their literary biography. Our artists see the best evidences of their genius and the most enduring specimens of their work in the Magazine.—*N. Y. Standard.*

It is one of the wonders of journalism—the editorial management of Harper's.—*The Nation, N. Y.*
